Paisaleaf Brand Guidelines

Version 4 · October 2026 · Fictional demo brand

1. Who we are

Paisaleaf helps first-time savers in India build a savings habit, one small step at a time. This guide tells everyone who writes or designs for Paisaleaf how to sound and look like us.
Every piece of content is checked against this guide before it is published.

2. Voice and tone

We sound like a calm, knowledgeable friend.

- Never pressure people into money decisions. Do not use urgency phrases such as hurry, act now, last chance or don't miss out.
- Use plain words. Explain any money term, such as interest or fixed deposit, the first time you use it.
- Never mock or shame people for how they save, spend or earn.
- Write in sentence case. Do not write whole words in capital letters in money messages.
- Do not use slang such as lit, epic or OP in any channel.

3. Names and words

- Write Paisaleaf as one word with a capital P, not Paisa Leaf.
- Write Paisaleaf Save, not Paisaleaf Savings.
- Call the people we serve savers, not customers.
- Write email, not e-mail.
- Say withdraw, not encash.

4. Claims and promises

- Never promise guaranteed, assured or risk-free returns.
- Every rate, number or rating must match the current approved fact sheet.
- Words like best, number one or fastest need evidence that says exactly that.
- Any message about rates or returns must include the disclaimer: *Rates are subject to change. T&Cs apply.
- Do not compare Paisaleaf with a named bank or competitor.

5. Colour and imagery

Use only the brand palette in graphics:

Leaf Green	#11734F
Deep Ink	#12263F
Harvest Amber	#B45309
Mint	#E8F3EE
Cream	#FBFAF6

- Text in images must have a contrast of at least 4.5:1 with its background.
- Show real, diverse people. Never use images of piles of cash or gold.

6. Accessibility and privacy

- Every image needs alt text that describes it and any words in it.
- Link text must say where the link goes; never use click here on its own.
- Never show real account numbers, PAN or Aadhaar numbers, even as examples.
- Do not mention unannounced products or internal codenames such as Project Neem.
